### EKM METERING INC.

#### This tutorial explains how to use Excel on PC (Windows) to import data from the EKM Push database in .xml.

**Step 1)** Open Excel and open a new Workbook.

#### Step 2) Go to Data > Import External Data > New Web Query

## EKM METERING TOC.

Step 3) Put your meter .xml data URL into the URL bar. For example this is the URL for 300 reads from meter 10068:

http://io.ekmpush.com/10068 ~300.xml?MTAxMDoyMDIw

Place this URL into the URL bar as shown in the screenshot below. Then click "Import"

**Step 4)** This window will come up (screenshot below). This is to select where the data will be placed in Excel. Click OK. (or if you want you can click Properties)

## EKM METERING INC.

**Step 4.5)** If you clicked Properties: You can select "Refresh Every 1 Minute"
